Please see graph for detailed financial data by projects in line with the financial summary graph (page one). The actual project costs are £21m overall and £10.78m in the current financial year.

The total project budget has increased from £55.4m in September to £57.6m in October due to the MUCH funding increasing by £2.2m from £15.1m to £17.3m which Norfolk County Council are funding, this brings MUCH's funding to £9.9m from Norfolk County Council and £7.4m from Kings Lynn Council.

A review of the Towns Deal actuals and funding is being completed from inception, from this review some adjustments in September have been required to reconcile reporting back to the Unit 4 accounting system. Reductions last month relate to the Riverfront Regeneration and Rail to River actuals and the Riverfront funding, which was primarily due to an historical error.

In the last KLNB £595k was approved to be transferred from ACC to the Riverfront funding to reduce the deficit from £0.9m to £0.36m, value engineering and other funding is being investigated to reduce this deficit further.
